## SIS Football Analytics Challenge-Submission Tutorial

In order to ensure that your work is seen and qualifies for judging, follow the submission guidelines outlined below. As a reminder: all submissions are final and will only be accepted until the submission deadline (July 19, 2020 11:59 PM ET). Any questions can be directed towards challenge@sportsinfosolutions.com.
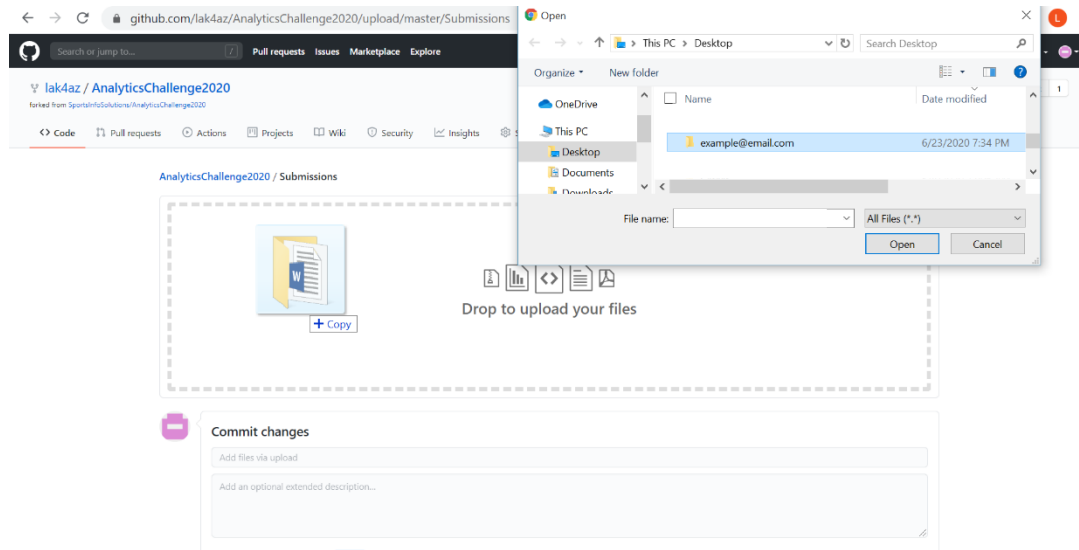

1. Fork the AnalyticsChallenge2020 repository to your own GitHub profile:
   - This will create a copy of the repository on your profile

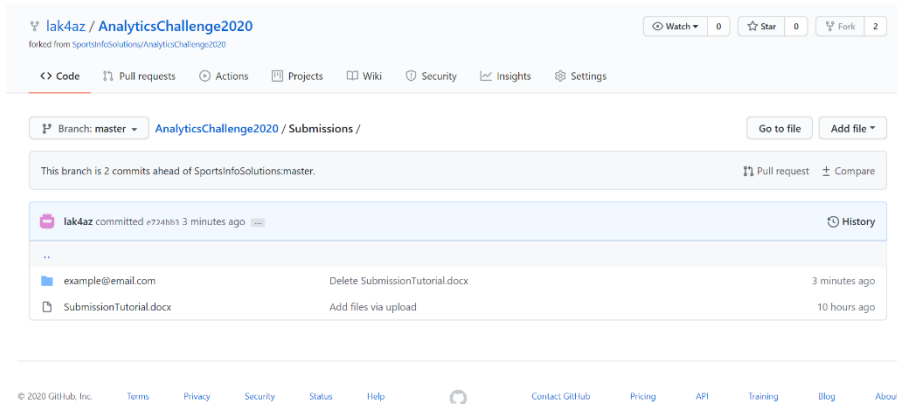

2. Upload **ALL** relevant submission materials into a subfolder of the submission folder in the forked repository.
   - The subfolder should be titled in the format 'example@email.com' at an address which you can be reached at in the event that your project is selected as a finalist.
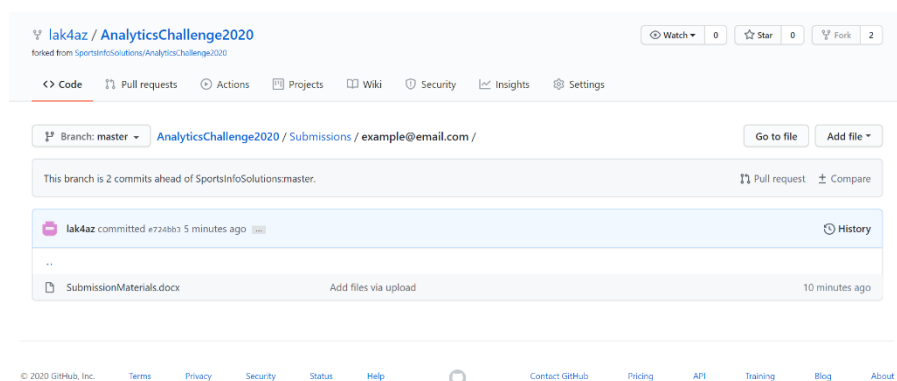

- An easy way to do this is to save all of your relevant submission materials locally in the folder 'example@email.com' and drag the folder into the upload box.

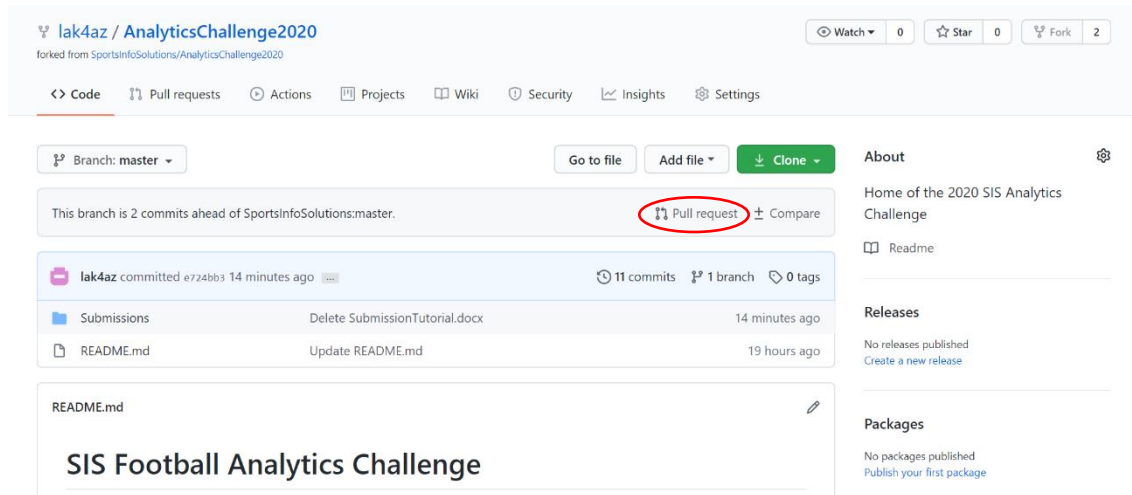

- When properly completed, the submission folder should look similar this:

- The 'example@email.com' folder should be complete with **ALL** submission materials:
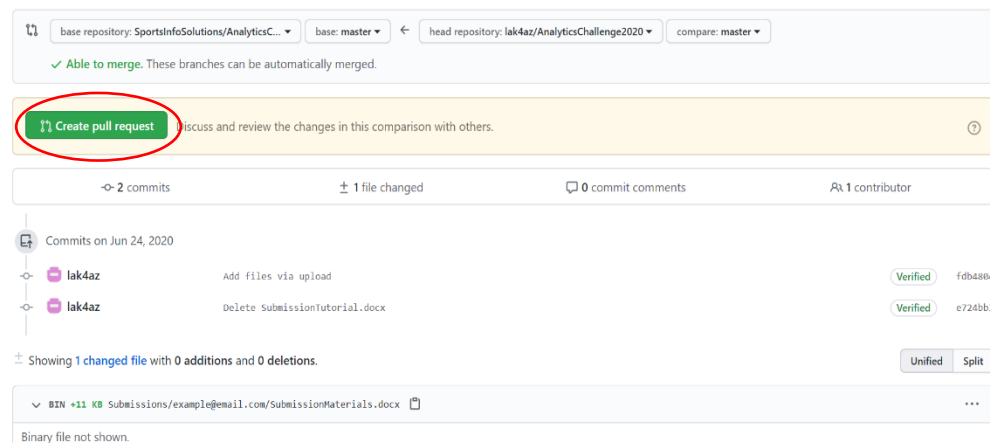

3. After uploading all submission materials, create a pull request to submit your work to the main AnalyticsChallenge2020 repository.

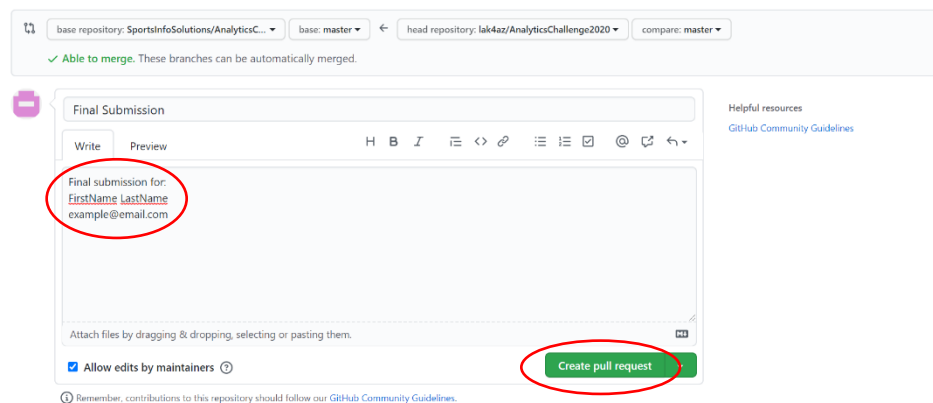

- Be sure to include your first and last name, along with your email in the comments before creating your pull request.

4. Congratulations, you have successfully submitted your work! If selected as a finalist, you will be contacted via email at the address which you provided upon submission.
